USEFUL AND SUGGESTIVE.

—There is no way of cooking a straw-
berry that increases its flavor, or retains
it unimpaired. The nearest approach to
it is when they are served in a properly
made shortcake.

—For dyspepsia take a teaspoonful of
graham flour and stir in a half tea cup of
water, sweeten or not just to suit
taste, and drink before breakfast. It
will help the dyspepsia.

—Soak dried apples for rice puddings
in pieces of robes and they should be
quite soft, and when you have dried them
you can imagine the delicious
sugar-coated taste.

—A New York physician says that a
plentiful supply of fruit denotes a
beautiful summer; and that it is also
necessary that people in this climate should
eat fruit in the spring and summer, as
that the equinox should drink of it
in the intense cold of the polar regions.

—Pretty photograph frames that re-
semble small ornaments, and hold
four or eight pictures, can be made of
white wood. Along the top gilt rods
and on it are hung little red, yellow,
peacock-colored silk curtains, intended
to draw, if one wishes, across the whole
frame.

—Cotton carpet rags are often quite
bright and shiny, and dull out a chair
top by the beauty of the brightest shade
of the rags, after they have been washed,
may be ironed together, the bright side
being folded out, and when worn car-
ried will keep in place until
worn.

—When my plumbago had carried
me from before the motionless ripples, I
managed to wheel him. As he came
around I cried "Fire!" and every one of
those stolid men obeyed the command
with absolute despatch. That assured
me all the more that I opened my
mouth when I was about to speak.

—To Wash Lace Curtains—Wash
them in warm suds, rinse twice, with
starch in the last rinsing water. When
nearly dry, fold them evenly and lay a
weight over them for several hours.

Hang them up at the windows while
slightly damp. Washing in hot water
causes them to shrink. If you desire an
even shade, dip the curtains in cold
water.

—Brown Sugar Puffs—Make a rich
pastry roll and cut it in slices as you would
for any kind of fruit (a small portion is
a good size for a puff). Take a
pinch of sugar two-thirds and butter one-
third, cream them, and put a little on
each puff, fold it together and crimp the
edges to prevent it separating. Perform
the rest with a fork and knife quickly.

They are very nice.—Oliver Farmer.

—The legion of small vermin which
infest houses, can be gotten rid of by a
vigorous application of a hot solution of
alum to their haunts. This should be
used very strong and put on freely with
a paint-brush. It is harmless, so far as
children are concerned, yet it is effectual
in getting rid of those pests, which
do so much to make the lives of house-
wives so uncomfortable.—Christina at
Work.

—Plumant Sauces—Brown in two ta-
blespoonsful of butter, two tablespoons-
fuls of onion, a few cloves, a
little pepper, when partly done add a table-
spoonful of flour, and when all is well
brown pour in a cup of gravy or soup
stock.

A hay-saff and a little bunch of
sweet herbs should be thrown in to
season for flavoring. Remove these after
a few minutes and season with a
salt, black pepper and a dash of chry-
santhemum.

At the last moment add a table-
spoonful of sharp vinegar. A juicy
round steak served with this sauce is
not to be despised.—Country Gentleman.

An Experience Which Made an English

"Was I ever afraid in battle?" said an
English army officer. "Many times. But
there are different kinds of fight. I
have served in India, in Egypt and in
Western Africa, but the worst 'funk' I
was ever in was when there was no enemy
within thousands of miles of me."

"I was a Captain at the time and was

had just got a lot of recruits on 'ear
hands, the rawest, greenest recruits you
ever saw. I was drilling them in rifle
practice at long range, and had great
trouble to make them obey orders with
precision. In fact, one could never be-
sure whether they would fire when you
wanted them to present, or when you
wanted them to fire."

"Ah! gentlemen, I shall never forget
for the day when I drew this blade
for the first time!"

"I pray where did you draw it?"
said an inquiring guest.

"At a rattle," was the lawyer's re-
sponse.

Simpson county will vote on prohibition
August 23.

The Force Bill will not be passed
this year. Some other year, perhaps.

The census count has gone far
enough to estimate the population of
the country at 61,000,000.

The Wheelers of the First District
have called a convention to meet at
Paducah, August 29th, to nominate a
candidate for Congress, in opposition
to Capt. Stone.

The crimes of the Winchester forger,
Hume Clay, continue to grow as
more light is obtained. His forgeries
now total up \$125,000. Clay is believed
to be in Mexico.

Away up in Boyd county, where
the Republicans and sinners have
been having things their own way for
many years, the Democrats elected
their whole ticket by over 200 majorities.

Two Davies county paupers, both
over 60 years of age, left the poor
house together the other day and were
married, the keeper refusing to let
them marry while under his charge.

Rev. Andrew Hunter, of Little
Rock, was stricken with paralysis
while preaching a sermon on repen-
tance. He suddenly stopped and ex-
claimed "My work is done," fell
down in the pulpit. He is past 70
and had been a preacher for 50 years.

Louisville had the biggest fire for
many years last Thursday. The Ken-
tucky Distillery with 25,000 barrels of
whisky was burned through the care-
lessness of a colored watchman, who
knocked over a lamp. Several other
buildings adjoining also went up in
smoke. Loss, \$2,000,000 with very
light insurance.

A close question for the courts to
decide has been raised in Johnson
county. S. T. Bayes the successful
candidate for County Clerk did at
3 o'clock p.m. election day. He re-
ceived 600 more votes than his op-
ponent E. F. Hawes, but which of
them was elected? That's the que-
stion.

The Wheelers of Henderson county,
in their primary meeting Saturday
afternoon, endorsed Congressman
Ellis for re-election. A district con-
vention at Sebree next Thursday is
expected to do the same thing, as
Henderson is the county where Editor
Givens has been supposed to be
strongest.

Adair county, which has for a long
time been in the hands of the Phil-
lippines, was landed safe on the right
side during the recent groundswell.
The entire Democratic ticket was
elected by majorities of from 100 to
250, and the Columbia Spectator is
justly proud of the sweeping victory
Shake.

The election in which prohibition was
repealed in Todd county by 189 votes,
it is claimed, was illegal from the fact
that the law as to posting notices to
days beforehand was not complied with.
If this is true, the election will
doubtless be held to be null and void
and prohibition will still hold.

The Farmer's Home Journal
brings forward Dr. John D. Clardy, of
this county, as the man for the farmers
of the State to support for Governor
next year. We do not know that
Dr. Clardy has gubernatorial aspirations,
but we do know that he is a sound
and consistent Democrat, an intellect-
ual and cultivated gentleman and a
man of the highest Christian character.
He would make a good Governor
and one who would reflect credit
upon the State as well as himself.

Dr. Clardy for Governor.

(Paducah Standard.)

The Farmer's Home Journal nomi-
nates Dr. John D. Clardy, the dele-
gate-elect from Christian county, to
be the next governor. The suggestion
will meet with a good deal of favor in
the west where Dr. Clardy is known.

He is a genuine farmer, a man of education, refinement and
manners. There is no occasion in
Kentucky for the arraignment of one
class against another in the Demo-
cratic party, but where recognition
can be given to the farming classes,
forming a large majority of the party
in the State, there is no reason why it
should not be done. There is no
questioning Dr. Clardy's ability, hon-
esty or Democracy, and if after making
a good record in the Constitutional
Convention, he should enter the race
for governor, he will have a strong
and enthusiastic following.

Mr. John Carpenter, of Goodland,
Ind., says: "I tried Chamberlain's
Colic, Cholera and Diarrhea Remedy
for diarrhea and cramps, and pains
in the stomach and bowels, with the
best results. In the worst cases I never
had to give more than the third dose
to effect a cure. In most cases one dose
will do. Besides it's other good qualities
it is pleasant to take, \$5 and 50
cent bottles for sale by Buckner Leav-
ell."

A Hawesville correspondent of the
Owensboro Messenger, has this to say
of the Farmers' Convention at Sebree

Thursday:

"From a prominent member of the
Alliance of this county I learned that
the meeting at Sebree City would, in
all probability, nominate that friend of
the farmers and laborers, who is one
of the tillers of the soil, Hon. Jas. A.
McKenzie. He said there was a gen-
eral desire for Mr. McKenzie, and he
thought that would be the result of
the above mentioned district conven-
tion."

The KENTUCKIAN happens to know
that Mr. McKenzie, since accepting
the World's Fair Commissionership
for five years, is out of district politics.

He is not a candidate for Congress
and is furthermore too good a Dem-
ocrat to accept any nomination not
made within the lines of the Demo-
cratic party.

During the epidemic of fits in this

country last summer, I had hard work
to keep a supply of Chamberlain's
Colic, Cholera and Diarrhea Remedy
on hand.

People often came ten or
twelve miles at night to get a bottle
of the Remedy. I have been selling
out medicine for the last ten years and
find that it has given better satisfaction
in cases of diarrhea and dysentery
than other medicine I have ever handled.

J. H. BENJAMIN, Druggist, Goleman,
Peope Co., Ill. Over one hundred bottles
of this Remedy were sold in that

county during the epidemic. It was
a perfect success and was the only re-
medy that did cure the worst cases.

Dozens of persons there will certify
that it saved their lives. Mr. Henry Blakeley
has been wearing a face of merry smiles for a few
days. It's a girl.

art on the 2d, a fine boy.

Short Simms, and Frank L. Richardson

seizure and detainer thereof, and
specially exempt them from giving
bond, and require that their joint
charges shall not exceed a commission
of more than 5 per cent.—N. O.

FARMERS IN THE SADDLE.

They Will Control in Kentucky
and Elect the Next Governor.

DR. JOHN D. CLARDY, of Christian Coun-
ty, the Man for the Position.

[Farmers Home Journal.]

This is a year of surprises in the
South so far as political matters are
concerned. For two or three years the
farmers organizations, known as the
Wheel and Alliance, have been
steadily growing in numbers and ag-
gressiveness. It is not necessary here
to relate the grievances of farmers
further than to point to the general
depression which pervades all the
agricultural regions. Farmers are
disillusioned at seeing all other branches
of industry prospering while their
own is getting worse and worse.

Hence they have determined to take
a hand in politics. They do not form
a new party, but seize, by force of
numbers, upon the dominant party
and place their chosen men in the
highest places in the State and force
their co-operation to nominate farmers
for Congress. They are getting control
in other States and all things indicate
the nomination of the Democratic Governor
of Kentucky next year.

The uprising in this State will be
ripe for work about the time of the
State convention.

Farmers believe they have been
neglected; that the laws are made in
the interest of other classes—not only
in the national Congress but in the
State Legislature. They are ready to
burst the bonds with which politicians
have held them and become masters
in fact as they are in numbers.

They will probably name the next
governor of the commonwealth and all
good signs point to

DR. JOHN D. CLARDY,

of Christian county, as the most in-
telligent and best posted farmer for
the position. Dr. Clardy is a man of
experience in affairs, a successful
farmer—well informed in govern-
mental affairs—and a student of political
economy.

He has been for many years at the
head of the State Grange and Presi-
dent of the State Farmers' Institute.
So popular is he in his own county
that he carried it last week by over
350 majority for Delegate to the Con-
stitutional Convention, though it has
given Republicans for twenty years by
large majorities. This shows his
standing at home.

He is operating two farms of 500

BLAIRLEY'S SCHOOL HORSE, Tay-

one o'clock p.m. Tuesday Mr. Walter
Stewart departed this life at the home
of his father, Mr. L. J. Stewart. He
was struck down some four weeks
ago with a severe illness and bore his
afflictions with patience till death re-
leased him from his suffering. His
death is indeed a sad, a severely sorrow-
ful blow to his parents, as well as his
friends and relatives. He was beloved
and revered by everyone who knew him.
He was buried at the old Lander
burying ground, near old Bellevue, Wednes-
day morning, Aug. 12.

Mr. L. J. Stewart made a short talk
and led in prayer. May he rest in peace.

Lieut. W. H. H. Sotherland, who is now stationed at Washington, arrived several days ago on a visit to his family.

Another Contest.

Robt. Launder, who was defeated by Col. M. D. Brown for City Judge, has served notice of contest upon Judge Brown, upon the ground that he received the votes of persons living outside the city limits. Col. Brown anticipating that step has already secured the names of between 40 and 50 colored voters from Gainesville and other suburbs who voted for his opponent and is confident if the contest is gone into his majority of 20 votes will be largely increased by the throwing out process. The contest will take the same course as the Cowan-Prowse contest and come before the same board at the same time—Sept. 8. This being the case many of the illegal votes discovered in the one case will also affect the other—except the votes of the white Republicans, few of whom voted for the colored candidate.

CREAM OF NEWS.

A Considerable Increase.

The committee to investigate for the county have reported an increase of \$70,000 in the shortage of Ex-Sheriff Brown for 1881, taking the State's investigation as a basis. The next year to taken up will be 1882.

The Teachers' Institute.

The institute of county teachers adjourned Friday after a session of five days. One of the most important steps taken was the division of the county into four districts in which sub-institutes or associations will be held at the following times and places:

No. 1. Dogwood Chapel, Sept. 14.

" 2. Consolation, Sept. 20.

" 3 Church Hill, Sept. 6.

" 4. Bevley, Sept. 20.

On Oct. 4, the County Association will hold its regular annual meeting in this city.

The Richards Family in Luck.

A bill providing for the payment of the French spoliation claims, aggregating \$1,233,638, was passed by the Senate Friday. This claim has been pending for many years and among its beneficiaries are the Richards family of this state, who are of French descent. Mr. H. C. Richards, of this city, and Capt. Richards, of Trigg county, are among the claimants and their attorneys estimate that they will receive about \$25,000 each as their share of the allowance, provided the claim passes to the one in which their family is interested. Mr. H. C. Richards thinks it is, and we trust he is not mistaken.

Johnny Russell Hort.

Johnny Russell, oldest son of Mr. J. D. Russell, was painfully hurt by an accident at Mr. M. V. Owen's Thursday evening. He had spent the day at Mr. Owen's and was in the act of mounting his horse, when the saddle turned. In trying to keep from falling, the gun was thrown up and the hammer struck him just above the left eye. The eye-brow was terribly lacerated and an ugly cut also extended up the forehead. With great fortitude he rode home, about three miles, although greatly weakened from pain and loss of blood. His wound was dressed by Dr. Hickman and the patient was able to sit up Sunday, though his face was still much swollen.

Robt. Launder, who was defeated by Col. M. D. Brown for City Judge, has served notice of contest upon Judge Brown, upon the ground that he received the votes of persons living outside the city limits. Col. Cadiz to the Rear.

Cadiz has made a blunder that her progressive people will never cease to regret. A proposition to establish a system of graded schools was voted down by the moneybags and mossbacks and the town will have to continue the old order of things and have such a school as the public money will sustain a few months in the year.

Ten years ago the same fight was made in Hopkinsville for \$4,500. This property was knocked off last week to Dr. Wood for \$1,000, but the sale was set aside and Mr. Withers took it at an advanced price.

Formal notice of contest was served upon Mr. Prowse Saturday, by Mr. Cowan's attorney. The notice names something over one hundred persons whose votes are attacked as illegal.

Mr. Prowse's attorneys are Messrs. Breathitt, Laudes and Clark, who are now preparing the response for the defense. The taking of depositions will begin at once.

The Bethel Baptist Association will meet at Adairville to-day and a large number of Baptists will leave on the early trains this morning. Among those from the Hopkinsville church who will go are Rev. C. H. Nash, Mr. J. O. Ferrell, Judge R. T. Petre and Mr. W. W. Ware. From South Union church Messrs. Jno. C. Gray, F. C. Stow and W. H. Boyd.

King & Franklin's circus drew a large crowd to the city and the merchants all had a busy day. The show was far ahead of public expectation and upon the whole a very spirited performance was given to a large crowd in the afternoon.

This was the only engagement of the season and the population was hungry for a show. The weather was threatening in the forenoon, but the day turned out to be fairly favorable.

BUSY BURGLARS.

They Are Too Numerous to Be Agreeable.

More Night Policemen Who Will Shoot to Hit.

Our citizens have been greatly annoyed of late by burglars. Two or three times a week entrances have been effected in residences in different parts of the city, and retiring at night all have to take precautions to keep out the scoundrels. The police force is altogether inadequate for the protection of our people, as they are not sufficient in number to keep in watch over all parts of town. The thieves seem to be aware of this fact and make their raids where they are not liable to run across a blue-coat.

Last Saturday night the residence of Mr. Clarence Anderson, in the Southern part of town was entered. When Mr. Anderson's eldest daughter, about half past ten, went to her room up stairs accompanied by a young lady who was spending the night with her, Miss Anderson stepped to one of the windows leading to the porch, and saw the crouching form of a man on the porch under the window. She gave the alarm, and Mr. Charlie Anderson, who was in his room sound asleep, on being awakened found that the lamp which he had, left burning on retiring, had been put out, but he rushed into his sister's room just in time to see the retreating figure of the man who had already been in or intended entering his sister's room. He says it was a white man, if his pistol had been loaded he could easily have shot him. The alarm that was raised aroused the whole house, but nothing had been taken by the thief.

The Democraic press did the finest work in the recent campaign that it has done since the present writer has been taking any observation of Kentucky elections.—Calhoun Constitu-

tion.

Col. M. D. Brown, formerly of this place, was last Monday week elected City Judge of Hopkinsville. We extend congratulations and wish the Judge much prosperity.—Midwayville Hustler.

Nothing was done at the special meeting of the Council on the night of the 11th, called to consider electric lights. There were no bills put in, although Mr. Tappe, of the Westinghouse Company, was present.

Parties who have been into the country during the past week tell us that corn and tobacco are looking very fine. The recent heavy rains have greatly revived the drooping spirits of the farmers and vegetation seems to have taken new life.

Dr. E. R. Cook exhibited some Crawford's Early peaches last week that measured 111 inches in circumference and weighed 22 ounces each. They were grown at his place on Seventh street.

The residence of Mr. John Hester, just across the street from Mr. Long's, was next visited the same night, but nothing was obtained.

Mr. J. N. Calhoun's house was entered the same night, but we have not been able to learn the result.

Mr. W. J. Withers has purchased

the Jesup homestead for \$4,500. This property was knocked off last week to Dr. Wood for \$1,000, but the sale was set aside and Mr. Withers took it at an advanced price.

Echo answers, "who," "where," "how."

Put on a large eight police force,

make them regular beats, and make them shoot to hit when the chance is offered.

That will do the business.

RELIGIOUS AND EDUCATIONAL.

The Harvard College overseers have voted not to allow women admission to the university divinity school.

At the seventy-sixth annual commencement of Princeton Theological Seminary a class of fifty-nine was graduated.

A portrait of William Lloyd Garrison has been presented to the public school at Washington which bears his name.

The receipts of the Baptist Home Missionary Society during the year are \$449,449.94; the number of laborers sustained, 833; the number of schools supported, 23.

The first theological school of the country, Haugor Theological Seminary, was chartered in 1814, and opened in 1816; the last is the Common School of Theology, located at Atlanta, Ga., was chartered in 1870.

Vassar College celebrates this year the twenty-fifth anniversary of its establishment. Its first president, who served about one-half of its first quarter century, John Howard Raymond, was one of the great educators of our time.

The convention of the Episcopal Church in South Carolina has decided that the colored clergyman who now has a seat in the convention is to retain it until his death or resignation; but that no other colored delegate is to have a seat.

Oxford possesses two vigorous ladies' debating societies—the Ladies' Association for Promoting the Education of Women in Oxford and the Somerville and Lady Margaret Joint Debating Society. Both societies are flourishing and hold three or four sessions each term.

Midland College, at Atchison, Kan., was founded by the General Synod in 1887, for the purpose of supplying home missionaries for the ever-growing Lutheran population of the West and Southwest. There is now a goodly number of young men in preparation for the ministry.

George W. Scott, of Atlanta, Ga., lately gave \$40,000 to the Decatur Female Seminary, which was founded about a year ago. Twenty-five thousand dollars of this gift will be spent on building and grounds, and \$15,000 on endowments. The First and Second Presbyterian Churches of Atlanta will each endow a chair.

An English bishop lately ordained a young gentleman as deacon, and felt it necessary to send to the clergymen who had recommended him, "What may your lordship want with me?" "I wish to speak about that young man?" "What young man, sir, whom I ordained? I want you to keep him in check. I had great difficulty, sir, in keeping him from examining me." —Texas Statesman.

The University of Moscow recently celebrated its one hundred and thirty-fifth anniversary. Its teaching force consists of 88 regular professors and 85 private instructors; the number of students is 803. The Minister of Instruction has in recent years made several efforts to lessen the attendance at this and other Russian universities, particularly by keeping away the foreign students. The numbers of the foreign students are over crowded. One of the latent orders is, that the sons of coaches and washers-women shall not be admitted to any of the higher grades of schools. Another order is that only a certain percentage of the total number of students can be given.

WIT AND WISDOM.

A troop of other vices follow in the train of untruthfulness.—Texas Statesman.

—It is a strange fact that a man can best be used as a tool when dull.—Chicago Tribune.

—The trouble in having your lathe always hanging out is, that the wrong people get hold of it.—Atchison Globe.

—Wisdom is the olive that springeth from the heart, bloometh on the tongue, and bareth fruit in the actions.—Grymstone.

—There may be thousands of things that are beyond our comprehension. There is nothing we can not think about, however.

—When a man dares himself "Fatalit," you let him be in hard luck. Good luck, as all the world knows, comes by chance.

—A man with an umbrella that doesn't belong to him is not watching the last column of a newspaper to see if it is addressed to him.

—We want a good deal about the mysterious ways of Providence from the friends of the man who earned his live-coals and gunpowder in the same pocket.—Atchison Globe.

—In all things we have to be somewhat venturesome, taking risks and counting on possible losses. He who is not willing to do this will lead a tame and fruitless life.

—Money may purchase mansions, social standing, and even high offices, and luck may bring money; but brains, principles, honesty and good government are not purchased.

—A wise man plays the tool when he enters into an argument on the street corner, for it is easy for the jests to get a hold of him, and the log is likely to burn with a sudden fire.

—The moral law is written on the tablets of sterility. For every false word or unrighteous deed, for cruelty or oppression, for lust or vanity, the price has to be paid at last.—X. Y. Ledger.

—Every one must have felt that a cheerful friend is like a sunny day, which sheds its brightness on all around; and most of us, as we choose, make of this world either a palace or a prison.

—Greediness, heromania, glory spring from what is left over above necessity. Some people have just soul enough for salt. You can not conceive a further diminution of their mortal endowments unfaded by such a diabolical disposition. Of course they have nothing to spare for a friend.—Glasgow Herald.

—Remember that he is indeed the wretched and the hapless man who, by constant attention of thought, discovers the greatest opportunity of doing good, and with ardent and animated resolution breaks through every opposition that he may improve these opportunities.

—Young man, you are wanted from the street corners, from the drug shop, and from the card table. Turn your steps into the road of noble aims and earnest work. There are offices for every successful worker. There are crowns enough for one to be placed on the head of every young man who goes through the smoke of the conflict to victory.—The Old Testament.

—Not in this condition but, in itself lies the main impediment over which that cannot not gain the mastery. What mortal in the world will not inwardly bring but would lie miserable? He who is born with capacities for any undertaking finds buds in fulfilling these the fairest portion of his being. It is the love and delight within him that makes them successful and helps them to good character.—The Household.

—To establish truth, to live for the truth, in its beauty, its purity, putting into life all pure thought, energy and influence, putting the life itself, into each smallest, as well as greatest concern of humanity, loyal at every moment for the right of man, and to the rights of man, people, or any individual.—The Household.

—Greatness, heroism, glory spring from what is left over above necessity. Some people have just soul enough for salt. You can not conceive a further diminution of their mortal endowments unfaded by such a diabolical disposition. Of course they have nothing to spare for a friend.—Glasgow Herald.

There are offices for every successful worker. There are crowns enough for one to be placed on the head of every young man who goes through the smoke of the conflict to victory.—The Old Testament.

—He made his tree.

—I guess I'll quit trying to be popular, said Willie Washington, dejectedly.

"Why?"

"A young woman to whom I was talking last night indicated very hwo-
lly that I made full stated."

"Did you make any reply?"

"No; I only told her that even that
was something of an achievement for

There are in the United States over three million Baptist Congregationalists. It is not yet for that one centralized point of "squeezes" ritualism that makes close communionism, the two kinds of Congregationalists might flow together like the two drops of water.
